PROFILE

A skilled web developer specializing in front-end development, adept at building responsive, dynamic, and user-friendly interfaces using HTML, CSS, JavaScript, Node.js, and Flask. Strong focus on UX, interactivity, and high-quality web solutions.

WORK EXPERIENCE

INTERNSHIP - VIRTUOSPARK | AUG 2024 - OCT 2024
WEB DEVELOPMENT / FRONT-END

- Designed responsive web interfaces adaptable across devices, with a focus on accessibility features to enhance usability for all users.
- Collaborated with developers to implement designs using HTML, CSS, and JavaScript, ensuring smooth translation from design to code.
- Managed databases, using MongoDB operations while optimizing queries for efficient data retrieval. Built scalable backend services using Node.js to handle server-side logic and user requests securely.

MINI PROJECT

JAVA | LIBRARY MANAGEMENT SYSTEM

- In Java utilizes a database to manage books, users, and transactions. The system typically includes features such as user authentication, book management and tracking borrowing and returning of books.
- The database is structured with tables for users, books, and transactions to facilitate efficient data storage and retrieval.
- Java's JDBC is used for database connectivity, while models represent data structures and DAO classes handle database operations.
- A graphical user interface (GUI) can be built using Swing to create an interactive experience for users.
